Student Undertaking for Ethical Academic Practice

Vidyalankar Institute of Technology, Mumbai

Assignment No: _0_____

Branch: _____CMPN_____Vertical: _____PC_PCC_____Semester: ____V___Division: _____C_____Subject Name: _____Software Engineering_____
Subject Code: ___PCCE12T

I hereby declare that for the assignment / academic activity submitted by me, I confirm ONE of the following statements by ticking (☐) the appropriate box:

(1) I have prepared the assignment / academic activity entirely by myself. ☐

(2) I have completed the assignment / academic activity with academic guidance or discussion from seniors / friends / peers, while ensuring the work is my own. ☐

(3) I have used AI-based tools only as an aid and have appropriately acknowledged or cited their use as per the ethical guidelines of the Institute. ☑
(4) I have used AI-based tools and directly copy-pasted content for the assignment / academic activity. ☐

(5) I have copied the assignment / academic activity from peers / friends.

I understand that selecting options (4) or (5) indicates unethical academic practice and may attract academic penalties, including rejection of the assignment or disciplinary action, as per the rules of Vidyalankar Institute of Technology, Mumbai. I submit this declaration truthfully and accept full responsibility for the same.

Student Name: _____Sumit Shidole_____Roll No.: ___25102A2004_____

Signature:  _____Date: _____24/07/2026_____

Assignment – 0		
COURSE INSIGHTS		
Q. No.		Details
Q.1	1a	How many buckets are there in VIT autonomous curriculum (syllabus)?
		The exact number of buckets is 5.
	1b	In which bucket is this course (subject) included?
		This course is designated under the "Program Courses" category as part of the Program Core curriculum.
	1c	How many credits need to be completed from this Bucket?

		The total number of required credits for this bucket is not mentioned in the documentation and requires validation via the syllabus details or Academic Coordinator
	1d	How many credits from this bucket have you completed till now i.e. at the end of last semester?
		Till now 19 Credits Completed.
	1e	How many credits does this course have?
		The course is assigned a total of 3 credits, consisting of 2 credits for Theory (PCCE12T) and 1 credit for the Practical Lab (PCCE12P).
Q.2	2a	Have you gone through the curriculum of your course?
		Yes.
	2b	Is there a pre-requisite of this course?
		No.
	2c	If yes, do you clearly remember the concepts of the pre-requisite course?
		-
	2d	Pl. mention the preparations you will need to do for this course e.g. revising which earlier course/s, software installations etc..
		No earlier coursework revision is specified, but preparation involves establishing an environment to utilize Git and GitHub for version control and deploying front-end code
	2e	List the names of future course/s, if any, which build on this course i.e. this course is their Pre-requisite.
		Future courses building on this subject include Project Management, Product Life Cycle Management, and the Final Year Project
Q.3	3a	List all the Course Outcomes (COs) of this course and mention which CO you find most useful.
		The course outcomes are CO1 (Define application domains and process models), CO2 (Explain specifications and requirement techniques), CO3 (Justify SDLC role and evaluate SE in PLC), CO4 (Apply testing and manage change/risk), CO5 (Understand core web technologies), and CO6 (Design static web pages using HTML5/CSS3). CO6 is highlighted as highly useful for building front-end web prototypes.
	3b	How are these COs mapped to the Program Outcomes (POs)?
		The COs are systematically mapped to POs using specific strength levels, classified into Strong (S), Medium (M), or Weak (W) correlation indicators across relevant programmatic categories.
Q.4	4	Where do you see the applications of this course in real life and industry?
		Applications of these concepts are directly visible in the structured analysis, design, implementation, testing, and maintenance of engineering systems like Payroll Management Systems, Online Shopping Systems, and Online Banking portals.
Q.5	5a	Select one Top university outside India and mention the name of their similar

		course.
		The Massachusetts Institute of Technology offers a highly comparable curriculum titled "Software Engineering for Web Applications".
	5b	How does their curriculum compare with our course?
		Both curricula closely match as they align core software engineering methodologies directly with hands-on web application development practices
Q.6	6a	How many lecture sessions are planned for this course?
		There are a total of 30 lecture teaching hours planned to cover the entire course modules.
	6b	List the suggested Textbooks, Reference books, E-books and Research papers related to the course. Are these resources available in our library? If yes, please mention their accession numbers.
		Key resources include textbooks by Roger Pressman and Ian Sommerville, reference books by Pankaj Jalote, and various IEEE research papers on Agile requirement engineering. These materials are marked as available in the library, but specific accession numbers are omitted from the plan and must be checked via the catalog.
	6c	What resources are currently uploaded on V-refer?
		The course curriculum assets, including the consolidated Academic Administration Plan and corresponding lecture guides, are uploaded on the platform.
	6d	What are the stipulated office hours of faculty for doubt solving sessions?
		Faculty members are available for query resolutions from 4:00 pm to 5:00 pm, with Division A on Mondays, Division B on Tuesdays, and Division C on Wednesdays.
Q.7	7a	What is the Evaluation Metric for this Theory Course i.e. What are the weightages for ISA, MSE and ESE?
		The theory evaluation breakdown consists of 15 marks for the In-Semester Assessment (ISA), 20 marks for the Mid-Semester Examination (MSE), and 40 marks for the End Semester Examination (ESE), totaling 75 marks
	7b	What does ISA comprise of?
		The theory ISA composition includes periodic Class Participation metrics, a scheduled Pop Quiz, Guest Lecture engagement tracking, and a Take Home Test.
	7c	What is the evaluation rubric for ISA?
		The cumulative 15 marks are distributed as 1 mark for Class Participation, 1 mark for the Pop Quiz, 2 marks for Guest Lecture attendance, and 11 marks spread across corresponding learning activities and assignments.
	7d	What are the dates of MSE for this course?
		The cumulative 15 marks are distributed as 1 mark for Class Participation, 1 mark for the

		Pop Quiz, 2 marks for Guest Lecture attendance, and 11 marks spread across corresponding learning activities and assignments.
	7e	What is the date of ESE for this course?
		The final end semester theory examination window is formally scheduled to run from November 16, 2026, through December 4, 2026.
Q.8	8a	Is there an allied Practical Course?
		Yes.
	8b	If yes, how many credits does this Practical course have?
		The allied Web Development Lab session carries 1 credit.
	8c	What is the Evaluation Metric for this allied Practical Course i.e. Weightages for ISA and ESE?
		The practical course metric is split equally into 25 marks for the laboratory In-Semester Assessment (ISA / Term Work) and 25 marks for the End Semester Examination (ESE / Oral), totaling 50 marks.
	8d	What are the dates of ESE exam for this allied Practical course?
		The end semester practical and oral examination sessions are scheduled to take place between October 24, 2026, and November 5, 2026.
Q. 9	9	What is the date of declaration of Result?
		The final results for the regular odd semester session are scheduled to be declared on Saturday, December 19, 2026.
Q.10	10	When does the next Academic Term Start?
		Jan 6th,2027.
